Family is a life jacket in the stormy sea of life
Joanne Rowling

Unique advantages of the Swiss Marriage Agency

- 1. Our Agency uses a closed database of registered potential candidates.*
- 2. To login to this database is only possible through a two-factor authentication system.*
- 3. All Agency clients undergo preliminary identification by comparing their passport photo with a selfie, taken at the very moment of identification.*
- 4. Confidential messages are not sent to regular email; the communication between the Agency and the client occurs only within a secure Personal Account.*
- 5. The agency is not limited by national or any other boundaries, such as age, gender, country of residence, nationality, religion, language, etc.*
- 6. The first meeting of a couple between whom a sympathy has arisen in absentia, is carried out online, through the Agency's resources, without disclosing their names and contact details.*
- 7. And finally, the Agency operates under Swiss jurisdiction, which itself tells on the Agency's capabilities, its reliability and the safety of its clients. Like in a bank.
In a Swiss bank!*
